In the aspect of my case with the Commonwealth Vs. Woolls, in the terms of trying to find jobs in the community of Alexandria, VA, I have gone over many resumes and phone calls to try to get a job in the community always getting the long end of the issue of where not hiring after they see my criminal profile on the internet that such states that I have an hate crime and that it's in the public domain of the internet also with my profile of criminal charges, I have had my rights restored in the United States after many long years since (1996-2018) I have been discriminated against in the community of Alexandria and over ridiculed by the public domain the people of the State of Virginia do not look at me as a person of interest for an job they look at me as A criminal of injustices cause and that since the year of 1978 I have had many socialist concerns threw A program called A/A that of communicating in A network of gender of men and women, they of the program have taking out the content of my information and that of my name and private concerns of my right to that of society and have caused in that issue and concerns for me not being able to have a job and the way people look at my character and the rights of my privacy and how things fall out of the istic issue of there over viewed concerns which has caused mental health information an issue to that of misjudgment on the behalf of my case for it to be denied as my petition was follow thru with respect to the court and that in this case with A "Claire I. Wills" as my case worker who brought to the intention of the courtroom back in 2004 of my case with my petition of an early release of probation and brought to the attention of 30 people of the courtroom of that petition of my disability of an head injury which in the case took out of the privacy of my right's and caused many people to overview my condition and my rights to that of being an American with royal background family concerns of being the relative second cousins of William Windsor and Harry Windsor and that of being the nephew of "Queen Elizabeth II" has put so many concerns to my right's and justice out of order. As it is fallow by law there is my complaint to that of the confederate statue and that of royal family background and society of a worldly government of public society of issued of open free communicating concerns on my name Michael S. Woolls which has caused my American right's to be at a disorderly concern of that of the "Commonwealth Of Virginia", The hate crime was dropped down to A misdemeanor and do's not mention that of the public domain of the internet and which still cause the people of the united states to misinterpret my name and character to be able maintain to the right's and freedom in the society of Alexandria and the community of which we are in that also includes the world of people disrespect to my privacy of communicating with the right to do so in a free open internet and commuting world of information, over the year's also being relative of John H. Carlyle the owner of

the "Carlyle Estates" In Alexandria, and that of being the nephew "Judge": "James H.P Woolls" of Alexandria, VA and that of the (Woolls) Library of the Court Room of Alexandria court house is where the discriminations lay's in on the behalf of my name Michael S.Woolls in my request I ask that of the courtroom of the judge diction of the court in the petition to go threw with my petition of my request to the courtroom and that there has been political concerns to the out struts of my name with that of being the family member of presidents of George W.Bush and George H.W.Bush in aspect to my ideal's I also came up with an government device called Police Cam the chest held cam that are used to day this was 13 years ago with the "Accesspatentgroup" with lawyer "Thian Tran" in aspect to the ideal I designed an gave copyright concerns with being the concept idealist behind it I did not get a percentage because I kept it quiet in the years to the years of 2005-2018 and now that I bring this to the court attention, I'm only asking for a 5% percentage behind the royal collectibles of a wordly wide government device that involves my name my privacy behind the issue in the Commonwealth Of Virginia and that my rights are out of content...Long over the year's that have concluded to my right's being taking and struck by other's in the community of Homosexuality and Bisexuality and Headerale sexual concerns with female's around the community and that of my physiological state of mind has given to that of my mental disablement to that of hearsay of many community members and that of religious beliefs of me and my family that do hurt my right's. That all predicament of discrimination jeopardize the kingship to the throne with "Prince" William Windsor and Harry Windsor on the account of what said about me can influence others on the account of hearsay roomer's to show that other's disrespect of the account of what said about me can concern public debate about the respect to the Royal family and the parliament seating.

Letter of note.

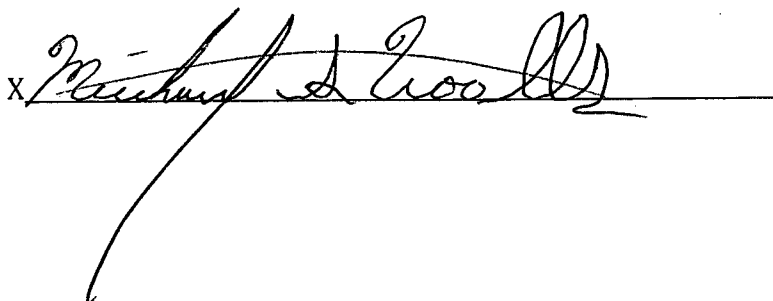

07-23-2019.

As I walked in to the National Guards Office of the Office of the Army in 2003, I talk with "A" lieutenant that I shook hands with and then showed him some designs, of the disk of a request in the paper work hand to the "LT" on first hand shake, after the hand shaking the "LT" Commanded me to go to the desk of Black N.C.O Officer to speak with him on the measures of the paperwork, on time I sat down and I introduced myself, me and the N.C.O. Officer Black Color man overlooked the paperwork and that time, I was asking for an agreement and the price was at 743. Million Dollars for the information, it seemed a little odd and accrued at first to hand the paper work over to the SGG. Mark S. Williams and then the price was of an oversight of the issue that I asked for an agreement to that of the design and the price was set by my request to that of 18. Million and then me and the SGG agreed. This is a big ordeal that just into the act of me risking my life, being paranoid half the whole time for keeping the information as private as I could, I have risked my life for information for Cyber security concerns and space cybersecurity concerns for the United States Government. And that I humbly ask for the price to that of the risk of my life and nature of my physiological disorder and to that of law that the Government of the Department of Defense of the United States of America pays the price of 1\$8. Million Dollars of that agreement.

Sincerely Inventor Woolls
